31st October 94.

My dear Mr. Brewster

I have long been owing you a letter & thanks for the information with which you so kindly furnished me regarding the Eagle Falco Columbarius Linn.; but I am afraid I can't afford to spend so much money. Perhaps some day I may be able to pick up the one I want for a reasonable sum. I have remembered you very kindly to Mrs. Miller when next you see her and tell him

I have some more a skins
skins for him and his own
skins as when I have collected
a few more. It was good
enough of him to say he owned
his and let me some
skins of some Birds I want
viz: Northern Grey forms of
Bonasa (B. umbelloides & B. togata)
also typical examples of B umbellus
from Georgia, Tennessee etc.

I showed also the specimens of
Pediacetes (P. campestris Rdgw)
from Illinois and the more
Eastern States. I am sending
him a few separate copies which
he may care to have.

In sincere love
W. Otbridge Sanford.

Should you care to have any
of our Sonora bird skins or
anything in the bird line I
shall always be glad to do
what I can for you
